Occupations

Auto Mechanic

15173 K-1
Book 1994 Trumpet Club

A mechanic checks a car's engine and brakes, changes oil and filters, adds antifreeze to the radiator and air to the tires. These and other routine garage activities are depicted in large watercolors. The wash effect does not always provide a clear look at the tools and parts being used; instead, it offers a general impression of the variety of tasks a mechanic performs.

Bold Visions - Women in Science & Technology

11502930 30 minutes 7-12
DVD 2005 Creative Expansions

This glimpses into the lives of extraordinary women working in the fields of science and technology: a research scientist searching for genetic causes of diseases, an astronaut applying her engineering expertise in space and a results-driven technologist responsible for numerous patents. Their exciting and collaborative work not only improves the quality of lives around the world but underscores the need for the United States to nurture its home-grown female talent in these male-dominated fields. In addition, high-school girls from an engineering program in southern Texas built a wind turbine to generate electricity for lights at a community center.

Soft Skills in the Workplace

11502935 25 minutes 6-12
DVD 2008 JIST
Everyone has skills, but when asked which ones they possess, many people forget about their soft skills. These are the essential skills that workers need to survive and thrive in the workplace. These key skills include everything from getting to work on time to getting along with others to being enthusiastic on the job. This focuses on the role these skills play in the workplace and offers insight into which skills viewers will need to develop to effectively handle a variety of work situations. This one-of-a-kind DVD is divided into several sections, or scenarios, of specific skills in action. These scenarios demonstrate how certain soft skills influence one's performance on the job. At the end of each scenario, viewers are given key points about what they've just seen. Instructors showing this DVD in a group setting are able to break at the end of each section to discuss with viewers what they may or may not have done differently throughout the scenario.
