Big Track - Switch Adapted

16255 K-12

Equipment 2003 Infogrip

The BIG track has a 3 inch trackball which makes it the largest trackball available. The large ball requires less fine motor control than a standard trackball and it is ruggedly built. It has a left and a right mouse click button located behind the trackball to avoid unwanted mouse clicks. The BIG track also allows for 2nd Mouse Connection both the BIG track and a second mouse can be connected allowing simultaneous participation. The bright large 3" trackball helps to make mouse movements easy and accurate.

While the oversized buttons make mouse clicks simple for those with poor motor control. For even more access the BIG track is available in a switch adapted version.

The switch adapted BIG track comes with two standard 1/8" plugs for two switches. Its left and right mouse clicks have been adapted so that you can use a switch for activation.

Easy Ball Version 1.0

15836 1-12

Equipment 1996 Microsoft

An easy-to-use mouse for children ages 2-6. Remains stationary; large 4" ball requires less fine-motor control; ruggedly built; single-button design. Base is 7" wide by 5.5" deep, 4" tall. Weighs less than 1 lb.

Joystick Plus with USB - IBM

16331 1-12

Equipment - Penny & Giles

Designed to operate as part of a man-machine interface. The purpose of this unit is to relay information relating movement of the joystick and the status of the switches to the host computer.

General Equipment

All-Turn-It Spinner

15179 K-3

Equipment 1996 Ablenet

The All-Turn-It spinner is a fun way to include students with disabilities in regular classroom activities even if they don't understand the curriculum content. Setup is so easy you can use it right out of the box. The included dice overlay permits students to play any game that uses dice. Both arrow and inner overlays spin independently with each switch activation, providing countless opportunities for learning. Use built-in switch or any external switch.

BookWorm Literacy Tool

16277 12+

Equipment - Ablenet

The ingenious inclusion tool that turns virtually any book into a "talking book". Just imagine the look on a child's face when he or she discovers the thrill of reading independently for the very first time. Now imagine a classroom where students with disabilities can read an entire story to their classmates and even take their turn reading aloud. With the BookWorm literacy tool, students have new way to connect with classmates, teachers and family members. Stories have new meaning and characters come to life as students join in the literacy experience. The BookWorm is so engaging that practicing turn taking skills and working on language comprehension, vocabulary building, fluency and print recognition becomes transparent. The Bookworm's 8-minute memory module offers you the flexibility to record as many as 32 pages – enough time for adapting two text-rich books or up to four short books. Adapting a book is easy. Simply attach a removable sticker to each page of your student's favorite book and record the story, page-by-page into the BookWorm. The stickers serve as a guide indicating where to push for playback.

Califone Language Master CardMaster

14866 1-12

Equipment - Califone

The 2010AV Card Reader can enhance classroom curriculum, speech-language therapies, foreign language acquisition and ELD/ ESL applications. A permanent record of student / client's progress is made by recording onto a blank magnetic card or connecting a cassette recorder into the auxiliary output.

Equipment

Can-Do Recorder

16915 1-12
Equipment - Independent Living Aids
Will record messages on cards. These cards can then be attached to any object or location associated with the message.

Casio Label It! LabelWriter

16233 12+
Equipment - Casio
The Label Printer makes it possible to print adhesive labels for a wide variety of applications, such as: name tags, cassette tape labels, binders and other applications. Also use it to label items throughout the classroom for vocabulary development.

Dymo Letra Tag QX 50 Electronic Labelmaker

16337 K-12
Equipment - Dymo
The QX50 expands the LetraTag line with a new look, new functions, and a computer (QWERTY) style keyboard. Uses include labeling items in your kitchen and cupboards, freezer items, crafts and sewing kits, photo albums, tools, and much more. Also, use the QX50 with Dymo's newest fabric iron-on tape, making it easy to identify children's clothing, sports equipment, and other fabric by simply printing, peeling, and ironing. This model prints on 1/2-inch wide LetraTag tape.

eBookman - 16MB

14823 1-12
Equipment 2000 Franklin
Provides a great reading experience in a pocketable format, with models, features and prices to fit any lifestyle. Requires PC with Internet Access & USB port, Microsoft Windows 98 or higher, Microsoft Outlook 98 or higher, 32 MB RAM and 50 MB free disk space.

eBookman - 8MB

14822 1-12
Equipment 2000 Franklin
Is very versatile. You can read electronic books, listen to auditory books or download music and keep track of your personal & professional appointments also. Has 8MB of built-in memory. Requires PC with Internet Access & USB port, Microsoft Windows 98 or higher, Microsoft Outlook 98 or higher, 32 MB RAM and 50 MB free disk space.

Language Master - Portable

22206 3-12
Equipment - Bell and Howell
Card reading device with voice output. Uses cards with recordable strip. Student feeds card through device to play message.

MotivAider

25034 1-6
Equipment 1994 ADD Warehouse
The MotivAider is designed to enable people of all ages to make desired changes in their own behavior and/or inner experience. It uses a gentle silent vibration - automatically repeated at regular intervals - to keep your attention focused on any change you wish to make.

Pocket Simon

16966 4-12
Equipment 1989 Milton Bradley
Is a computer controlled version of the original Simon.

Polar Accurex II Heart Rate Monitor

31693 1-12
Equipment - Polar
Is a performance monitor and multifunctional sports watch in one unit. Constant feedback about your workout is displayed and recorded for analysis either after the training session or race. Easily tracks recovery information and improvement, two important factors for efficiency managing a training program.

Power Link 2 Control Unit

88499 12+
Equipment 1992 Ablenet
Gives students the ability to control most electric appliances, tools and toys with single switches. PowerLink control unit also gives students the power to take turns operating devices, activate two devices in sequence or experience the freedom of choice making when deciding between two activities.

Power Link 3 Control Unit

17854 12+
Equipment 2001 Ablenet
Gives students the ability to control most electric appliances, tools and toys with single switches. PowerLink 3 control unit also gives students the power to take turns operating devices, activate two devices in sequence or experience the freedom of choice making when deciding between two activities. Four modes of control, including Direct, Latch, Timed Seconds and Timed Minutes let you choose the amount of time the activity requires to ensure student success.

Equipment

P-Touch Personal Labeler - PT-80

16338

K-12

Equipment -

Brother International

The PT-80 is a handheld all in one affordable, feature packed "Personal Labeler". The PT-80 will easily print labels in 6 type sizes, 9 type styles and 1 font for all different labeling needs - all you have to do is type in your text and print. At the touch of a button, you can also add the time and date to your label, with a choice of 8 different formats. With the PT-80, you can print (non-laminated labels) in 3/8" & 1/2" wide. The PT-80 comes with 1/2" Black on White "M" starter tape and User Manual.

Tape Recorder:

Victor Reader - Vibe

19694

1-12

Equipment 2005 HumanWare

It is the smallest, most affordable Daisy player ever designed for the visually impaired and print disabled. Whether it is for school, work, or leisure, it offers everything you are looking for in a digital talking book player at an affordable price. The VIBE is both a sophisticated digital talking book player and an audio and MP3 CD player that you will want to take with you everywhere. Its advanced functionalities allow you to read highly structured books such as school manuals and reference books as well as novels and magazines. Is a standard CD player: also plays audio and MP3 CDs. The most compact Daisy player in the world: Light weight 275 grams and dimensions 29 x 148 x 138 mm. Supports all Daisy navigation levels: Quickly go to chapter, section, page, paragraph, and so on.

Augmentative Communication

7 - Level Communication Builder

14732

1-12

Equipment - Enabling Devices

Has seven levels and five interchangeable frames/overlays. Has a 1, 2, 4, 8, or 16 message option, making it the most versatile communicator for clinical evaluation.

Attainment Talker 6

16224

12+

Equipment 2010 Attainment

Attainment Talker 6 is easy to record and use, each with 10 seconds of recording time per message. This has 6 messages with a large (2-inch) active area for each message. A clear, plastic pocket holds and protects communication cues. Hold the talker with 2 hands and activate speech with your thumb, or use it as a tabletop talker. The nonskid pads keep the talker from sliding. Powered by 2 AA batteries.

Big Step-By-Step Communicator

18127

K-12

Equipment 2003 Ablenet

Is a communication method that provides students with opportunities to experience "real" conversations. The Step-by-Step with levels has the same great look, but is now easier to record and stores messages on up to three levels. Features include: convenient slide switch indicates levels; 2-1/2" activation surface; crystal-clear voice quality; snap Switch Cap; and toy/appliance cable included .

Cheap Talk 4 In-Line with Jacks

15205

1-12

Equipment - Enabling Devices

Device has four 2" buttons in one row of four. Each button plays a different message. User programmable.

Cheap Talk 4 Square (Direct Select)

19059

1-12

Equipment - Enabling Devices

Device has four 2" buttons in one row of four. Each button plays a different message. User programmable.

Cheap Talk 4 Square with Jacks

15207

1-12

Equipment - Enabling Devices

Device has four 2" buttons in two rows of two. Each button plays a different message. User programmable.

Equipment

Clear Clock Communicator

25385 1-12
Equipment - Enabling Devices
Can communicate with single or double switch by triggering the clock hand to sweep around and point to the object.

Clip Talk Direct with Jacks

15610 1-12
Equipment - Enabling Devices
Is a self-contained communication device that contains a clip that snaps onto a wheelchair.

Compartmentalized Clock Communicator

25386 1-12
Equipment - Enabling Devices
Can communicate with single or double switch by triggering the clock hand to sweep around and point to the object.

GoTalk 20+

18803 1-12
Equipment 2005 Attainment
Is lightweight and rugged and now has a 100 message capacity (20 keys each 1-inch square, and five recording levels). Plus five “core messages” which stay the same on each level so you don’t need to re-record essential messages for each level. It has all new technology providing great sound and volume control. It also has easier sequential recording, an option for whole level erasing and built-in overlay storage.

GoTalk 9+

14109 1-12
Equipment - Attainment
Is a portable, easy-to-use communication tool. Use it for augmentative communication and curriculum enrichment.

GoTalk Button

19912 1-12
Equipment 2006 Attainment
The handy, versatile GoTalk Button records a 10 second message, and the large play button ensures easy use. Its compact size makes it easy to slip in your pocket, or use the built-in magnet to display on the fridge or any metal surface. Record lock feature eliminates accidental erasure. Buy several to keep messages in multiple locations. Battery included. Size: 2” diameter.

Invisible Clock

18423 1-12
Equipment - Attainment
Multi-function timer beeps or silently vibrates to discreetly signal a set time. Ideal to cue repetitive tasks or multiple personal reminders. Set up to 12 different alarms per day. Adjustable vibration intensity and beep volume, number of beeps, illuminated display and auto button lock to prevent timer cancellations.

Micro Voice

31660 1-12
Equipment 1995 Frame Technologies
Has 24 messages, each 5 seconds long. MicroVoice is a direct selection communicator designed for use by individuals with communication disabilities. It has a clear plastic pocket for overlays. Power: uses four triple-A batteries.

One by Four Talker

17384 1-12
Equipment 2002 Attainment
Four small talkers in one case. Use as a four-button communication tool or as separate wearable one-message devices. Transparent pockets hold picture/word cues on top of the case. Users press pictures to play message. Each one-talker has ten seconds of voice recording capability.

One-Step Communicator

31776 1-12
Equipment 1997 Ablenet
Is like a BIG Mack, has 20 seconds of memory plus all the features of BIG Mack (except the external speaker jack).

Pocket GoTalk

17468 1-12
Equipment - Attainment
Is a hand-held AAC device that is scanning capable. It's a 25-message talker with five easy to activate buttons and five levels. Each message has 12 seconds of recording time.

ProxTalker

16203 12+
Equipment 2009 Logan ProxTalker
Communication device that is designed for students using PECS (Picture Exchange Communication System). Picture symbols are displayed and when the student chooses a symbol and places on talker, the device will speak the word associated with it.

Equipment

Say-It! Sam Communicator Version 2.0

16324 12+
Equipment 0 Words Plus Inc
Say-it! SAM was designed from the ground up to be the most powerful, easiest to configure, and simplest to use Augmentative Alternative Communication (AAC) device available in its class, all at a surprisingly affordable price. People of all ages and physical challenges will love SAM for its powerful features, easy to navigate graphical interface, and loud and clear speech output. Speech Language Pathologists (SLP's) will love SAM for its extensive feature list, flexible design options, and fast and easy page setup.

Step-By-Step Communicator

31777 1-12
Equipment 1997 Ablenet
Now your students can give a series of instructions to classmates, conduct an interview for the school newspaper or express a single message in a variety of ways.

Step-By-Step Communicator with Levels

16567 1-12
Equipment - Ablenet
Levels are ideal for prerecording a series of messages sequences to be used at specific times during the student's day.

StepPAD

14215 1-12
Equipment - Attainment
Works like a tape recorder—only better. Ideal for recording step-by-step instructions. Users press “play” to hear the cue as often as needed. Press “forward” for the next step or “rewind” for the previous one. Instructors can change one step without affecting others within the sequence. Total 72 seconds of recording time.

Talk Pad

20382 1-12
Equipment 1990 Frame Technologies
TalkPad is a direct selection communicator designed for use by individuals with communication disabilities. This communicator has four switches that the user presses to play recorded messages, each up to 15 seconds long. The device includes a carrying handle and a clear plastic moisture-guard. Options: Available with four external jacks for switch access. Power: uses three double-A batteries.

Talk Pad (with 4 External Switch Jacks)

31659 1-12
Equipment 1995 Frame Technologies
TalkPad is a direct selection communicator designed for use by individuals with communication disabilities. This communicator has four switches that the user presses to play recorded messages, each up to 15 seconds long. The device includes a carrying handle and a clear plastic moisture-guard. Options: Available with four external jacks for switch access. Power: uses three double-A batteries.

Tech 4 - 4 Message & 4 Jacks

14768 1-12
Equipment - AMDI
Is the first 4 message Augmentative Communicator to offer high quality, reliable performance and many distinctive features.

TechSpeak 6x32

14780 1-12
Equipment - Advanced Multimedia Devices
This augmentative communication device is lightweight and durable. It has six levels with 32 messages per level.

TimePAD

14189 1-12
Equipment - Attainment
Has five recorded messages that can be activated by a timer. Also functions as an expressive communication aid. Up to 72 seconds of speech divided among five messages.

Voice Cue

18422 1-12
Equipment - Attainment
Voice Cue is an all-new, discrete auditory cueing device. Record up to five messages (60 seconds total recording time) and set the clock to play back messages at pre-set times. Each message can be assigned two playback times. For example, record “Time to take your medication.” and set the clock to play the message at 7 a.m. and again at 6 p.m. If the message catches you off guard and you’re not sure what it said, just press the “replay” button within one minute to repeat the last message. Features a digital clock, volume control, and non-volatile memory.

Equipment

Voice in the Box: 16 - Slimline

15312 1-9
Equipment 1997 Frame Technologies
Device has 16 - 2" buttons which play voice messages.
Plexiglass keyguard directs child's pointing. Easy change overlays. User programmable.

Voice in the Box: 6 Level - Slimline

15314 1-9
Equipment 1997 Frame Technologies
Up to 6 levels of messages, 16 messages per level. 3.75 seconds per message. Clear plastic keyguard, easy to record and use.

Voice in the Box: Revised (24 message)

31657 1-12
Equipment 1995 Frame Technologies
Device has 24 buttons which play voice messages.
Plexiglass keyguard directs child's pointing. Easy change overlays. User programmable. Also has 4 switch jacks. Use switch to play back message.

Voice Pal Plus

31663 1-12
Equipment 1996 Adaptive Communication
Up to 10 six second messages can be recorded and played back by touching the built-in keyboard, external switches or through the optional scanning input.

VoicePod

19911 1-12
Equipment 2006 Attainment
VoicePod is an inexpensive digital recording and playback system ideal for photos, language cards and personal mementos. It features 36 reusable, two-sided sleeves, each with an ID strip to access recordings. That means you can have up to 72 messages stored on the easy-to-use, portable VoicePod. Here's how it works: Each sleeve has a code read by the VoicePod and a transparent flap to hold photos, cards or poems. Slide a sleeve into pod and record up to a nine-second message by pressing REC button and talking into MIC. A record/lock feature prevents accidental erasures. Remove sleeve and put in clear plastic storage box. Remove sleeve and put in clear plastic storage box. Play the message by sliding sleeve into pod. Press PLAY to replay the message anytime the sleeve is in the pod. Attach the PRESS/PLAY bar for easier access to messages. Erase or re-record a message as many times as you like.

Alternative Access/Keyboards

Ablenet Control Unit

23941 1-12
Equipment - Ablenet
Device allows switch interface with electrical appliances.

Big Keys for Mac

14430 1-12
Equipment - Greystone Digital
Is an alternative keyboard.

Big Keys Plus for IBM - ABC

15490 1-12
Equipment - Greystone Digital
Keyboard with several new features including punctuation, back space, function keys and a no repeat feature. This model is for the PC and comes with a ABC layout.

Big Keys Plus for IBM - Qwerty

15489 1-12
Equipment - Greystone Digital
Keyboard with several new features including punctuation, back space, function keys and a no repeat feature. This model is for the PC and comes with a QWERTY layout.

Cirque Smart Cat Glidepoint Touchpad

17850 12+
Equipment 2001 Kinesis Corporation
Cirque Smart Cat sets a higher standard of performance and comfort with the new generation of GlidePoint technology. That old mouse or trackball can't compete with effortless control like this... Intelligent software you can personalize, one-touch scroll and zoom in most applications, distinctive sounds for each operation, and more make the Cirque Smart Cat the most precise, easy-to-use pointing device in its class. Requires a PC-compatible computer with USB port.

Discover Board

31662 1-12
Equipment 1996 Don Johnston
Is an alternate keyboard. Draws on Ke:NX technology for its access, speech and learning capabilities.

Equipment

ePen Mouse Solution

19745 1-12

Equipment 2005 Ezonics

This mousing device will change the way you use your computer. It provides a whole new computing experience combining both comfort and functionality. The ePen works just like an ordinary mouse; you can left-click, right-click and even scroll. Because of the advanced pressure-sensitive optical sensor technology, you can use it on nearly any surface. It was designed with comfort and smart ergonomics in mind to help people that suffer from wrist injuries and shoulder pain caused by using the mouse too much.

Intellikeys USB Keyboard

14923 1-12

Equipment 2001 Intellitools

This touch-sensitive keyboard lets you customize settings to ease access for students who press unwanted keys or keep their finger on a key too long. Change the way IntelliKeys looks and functions by sliding in any of six high-contrast keyboard configurations included, to facilitate physical and cognitive access. Use with any word processing program or software that accepts keyboard input. Windows and Macintosh compatible.

No Touch Talker

18258 K-12

Equipment - Attainment

Teaches an individual to move towards a target, but doesn't require actual contact to activate messages. Only a slight movement of finger or toe activates the motion-sensitive device to seek attention, elicit assistance, make a comment or more.

TouchWindow - 15" - Mac/Win USB

17855 12+

Equipment 2000 Riverdeep

Builds on the natural sensory skills of students allowing them to interact with objects on the screen. Allows early learners and students with a variety of disabilities to use a computer.

TV & VCR Remote

31775 1-12

Equipment 1997 Ablenet

Controls a TV and VCR.

Universal Mounting System

25935 1-12

Equipment - Ablenet

Is a camera mount set-up that can be used to flexibly position a switch.

Portable Devices

AlphaSmart 3000

15369 1-12

Equipment 2000 Intelligent Peripheral

This portable word processor has all the basic features of a standard word processor. Interfaces with Mac or PC or print directly from the AlphaSmart.

AlphaSmart 3000 with CoWriter Smart Applets

17148 1-12

Equipment 2001 Intelligent Peripheral

This portable word processor has all the basic features of a standard word processor. Interfaces with Mac or PC or print directly from the AlphaSmart.

Califone Personal VoiceSaver PA

16322 12+

Equipment - Califone

Perfect for groups up to 25 people, the lightweight VoiceSaver is equally effective for leading tour groups, dance and athletic classes, presentations, or lending support for those needing increased voice projection and amplification. It's light enough to wear on a belt and can be comfortably worn all day.

Classmate Reader

16323 3-12

Equipment - Don Johnston

The ClassMate Reader is a new portable text reader designed to boost reading and learning independence. Students can listen to the audio version of their textbooks and study materials, while following the highlighted text on screen. Students gain access to their curricular materials anywhere and anytime with this easy-to-use device.

Dana

16745 1-12

Equipment 2002 AlphaSmart

Dana is a true alternative to the laptop. It combines the affordability of a handheld with the ergonomic benefits of a notebook computer. Dana features Palm OS, giving you access to more than 10,000 Palm applications. Includes a full-size keyboard and a screen that's 3.5 times wider than the typical handheld screen. You can type or enter data using the keyboard or by writing with the Dana stylus directly onto the screen. All Palm applications are compatible with Dana, and many are ready to take advantage of the wide screen.

Equipment

Dream Writer

14778 1-12
Equipment 1996 NTS Computer Systems
Portable word processor which interfaces with Macintosh or IBM compatible computer. Full sized keyboard, LCD displays of 8 lines & 80 characters. 32K RAM capable of holding 80 pages of text. Build in calculator, calendar, scheduler, world clock. Capable of editing text (center, bold, underline, cut & paste).

Kindle - Amazon's 6" Wireless Reading Device

16078 K-12
Equipment 2009 Amazon
Kindle is a software and hardware platform developed for reading e-books and other digital media. Slim: Just over 1/3 of an inch, as thin as most magazines. Lightweight: At 10.2 ounces, lighter than a typical paperback. Wireless: 3G wireless lets you download books right from your Kindle, anytime, anywhere; no monthly fees, service plans, or hunting for Wi-Fi hotspots. Books in Under 60 Seconds: Get books delivered in less than 60 seconds; no PC required. Paper-like Display: Reads like real paper; now boasts 16 shades of gray for clear text and even crisper images. Long Battery Life: 25% longer battery life; read for days without recharging. Carry Your Library: Holds over 1,500 books. Read-to-Me: With the new text-to-speech feature, Kindle can read every newspaper, magazine, blog, and book out loud to you, unless the book's rights holder made the feature unavailable.

LiveScribe Pulse SmartPen - 4GB

16385 K-12
Equipment - LiveScribe
The Livescribe paper-based computing platform consists of a smartpen, paper, software applications, and developer tools. Central to the Livescribe platform is the Pulse, a ballpoint pen with an embedded computer and digital audio recorder. When used with special paper, it records what it writes for later uploading to a computer, and synchronizes those notes with any audio it has recorded. This allows a user to replay portions of a recording by tapping on the notes he or she was taking at the time the recording was made. It is also possible to select which portion of a recording to replay by tapping on the relevant portion of a page on-screen, once it has been synced to the Livescribe desktop software.

Time Timer

14775 K-3
Equipment - Autism Resource Network
Is an innovative teaching aid aimed toward the time education. Is a time-awareness teaching aid.

Switches

iTalk2 Communication Aid

18120 K-12
Equipment 2003 Ablenet
Is a dual message communicator that is ideal for choice making. With dual toy/appliance jacks you can easily pair communication with a fun activity.

Switch

14770 1-12
Equipment - WATI
Is a "light by touch" light converted to a switch.

Switch Interface for the Macintosh

24964 12+
Equipment 1991 Don Johnston
Allows attachment of up to five switches to operate specially-designed switch activated software.

Switch Interface Pro 5.0

16555 12+
Equipment - Don Johnston
Use with any Macintosh or Windows switch-ready or "click" software. Attach up to 5 switches to run software that supports multiple switches.

Switch Latch and Timer

25390 1-12
Equipment - Ablenet
Use this device whenever you need to add Modes of Control to any switch accessible toy or appliance. Use with any pre-adapted device, or use our Battery Device Adapter to create you own adapted toy or appliance. All Switch Latch and Timers include three modes of control that determine the amount of time the appliance operates once the switch is activated: timed seconds; timed minutes; and Latch.

Switch: 100

23073 1-12
Equipment - Ablenet
Single push switch made of plastic. Highly sensitive. A click provides auditory feedback.

Switch: Big Green, Cordless

31676 1-12
Equipment - Ablenet
Is 5" diameter, circular switch sensitive to less than 3 ounces of pressure.

Equipment

Switch: BIGmack

25393 1-12
Equipment 1995 Ablenet
Is an easy and affordable first step to voice output.

Switch: Buddy Buttons

15142 1-12
Equipment - TASH
is a single switch that is reliable and durable. Is activated by pressing anywhere on the top surface: the force to activate around the edges is half the force required in the center.

Switch: Ellipse 6

15792 1-12
Equipment - Don Johnston
Is a 4x6" elliptical shaped switch. Requires 5 ounces of pressure.

Switch: Jelly Beamer - 1-2 Switches

19756 12+
Equipment 2005 Ablenet
A wireless switch that is rugged, reliable and easy to use. The Jelly Beamer performs just like a traditional switch – without the hassle of cables.

Switch: Jelly Bean

24211 1-12
Equipment - Ablenet
Is 2 1/2" diameter, circular switch sensitive to less than 2 ounces of pressure.

Switch: L.T.

15791 1-12
Equipment - Don Johnston
Is a pressure-sensitive switch.

Switch: Left/Right Rocker

15110 1-12
Equipment - Don Johnston
Is a switch that can be activated by either pressing on the left or right.

Switch: Spec

31635 1-12
Equipment 1996 Ablenet
Comes complete with three different bases so you have many mounting options: standard flange, flush base and strap base.

Switch: String

23074 1-12
Equipment - Ablenet
Easily activated switch for users with limited active movement.

Switch: String

25938 1-12
Equipment - -
Easily activated switch for users with limited active movement.

Switch: Velvet

25937 1-12
Equipment - Kanor
Is a switch inside a velvet piece of cloth.

Wireless Switch Interface - USB

19759 12+
Equipment 2006 Quizworks
Features: Easy Set-up; Radio frequency (no line of sight requirements); Up to 100 feet distance; Supports 1 to 5 switches; USB for MAC or PC/WINDOWS; Standard 1/8" plug for switch connection; Uses standard alkaline 9-volt battery; Change templates with a push of a button; No additional USB drivers required; and Supports industry standard single switch software applications.
