Books

Assessing Students' Needs for Assistive Technology - ASNAT - 5th Edition

19634 12+
Book 2009 WATI

ASNAT is designed to help educational teams assess a student's need for assistive technology. ASNAT provides a wealth of information about assistive technology. The first chapter explains the assessment procedure and forms that WATI has developed to support school teams as they engage in the assessment process. Subsequent chapters provide detailed information on specific categories of assistive technology. The appendix contains resources including print, web, and AT vendors.

Assistive Technology Pointers for Parents

16234 12+
Book 2000 Coalition for AT in Oregon
The workbook is sixty-six pages long and includes worksheets, stories about children who use assistive technology and resource and reference information that parents will find valuable in exploring assistive technology.

AT Tools for Learning Disabilities

16240 12+
Book - SW Patins
This manual attempts to give readers an overview of the many technologies currently available that are beneficial to those who have learning disabilities. This manual serves as a starting point for those who may be unfamiliar with the field of assistive technology.

Bridge to Independence - Assistive Technology in Special Education

16250 12+
Book 1998 Wisconsin Coalition for Advocacy
Question and answer guide for parents, educators and advocates regarding why, where, and how assistive technology fits into the special education program.

Computer and Web Resources for People with Disabilities - A Guide to Exploring Assistive Technology - 3rd

16248 12+
Book 2000 Hunter House
This newly expanded book describes how to make use of conventional and assistive technologies, and explains how to determine needs. An indispensable resource guide, it lists funding sources, government programs, publications, and technology vendors.

Designing Environments for Successful Kids (DESK)

16236 12+
Book 2003 WATI

The DESK concept is based on the premise that children can only succeed when the supports they need are readily available in their environment. This manual will describe a variety of these supports for infants, toddlers, children, and youth at different ages and different developmental levels who are engaging in a variety of learning tasks. It will focus on providing those supports in the quickest, most practical and least expensive ways possible. Suggested materials and devices will include both commercially available and teacher or parent made items. Each section of the manual focuses on a different developmental level and therefore different tasks. In each of the sections, materials related to those tasks are featured.

Five Little Monsters

16254 K-3
Big Book 1995 Creative Teaching Press
Repetitive, predictable story lines and illustrations that match the text provide maximum support to the emergent reader. Engaging stories promote reading comprehension, and easy and fun activities on the inside back covers extend learning.

Inclusive Science Strategies

16242 12+
Book 2007 National Science Foundation
This book is an effort to incorporate new insights about how information drawn from research and educational practice can be used to address the everyday problems of teaching.

Ontogeny of Inclusive Science

16246 12+
Book 2007 National Science Foundation
This book is an effort to explore the connections between knowledge and practice applied specifically to science, with a focus on students with disabilities learning in a common educational setting with a heterogeneous and diverse group of peers.

Reach Them All - Adapting Curriculum and Instruction with Assistive Technology in Inclusive Classrooms

16238 12+
Book 2001 Center for Disability Info
The intent of this manual is to assist teachers, related service personnel, administrators, and families in learning about assistive technology and how it can help students with disabilities access their education. Information on conducting assistive technology assessments is included along with a comprehensive Assistive Technology Assessment Package. Strategies are also included in the manual demonstrating ways that assistive technology can be integrated into the general education curriculum.

School Administrator's Desktop Guide to Assistive Technology

16252 12+
Book 2004 CEC
Written by national experts Gayl Bowser and Penny Reed, this handy, easy-to-read practical guide provides an overview of assistive technology services. The desktop guide describes the school administrator's role in ensuring that assistive technology services are provided in a manner that is legal, ethical, and cost effective. Includes resources, self-assessment tools, and specific actions that administrators may take related to leadership, management, supervision, and program development.

Showcasing Assistive Technology in Wisconsin Schools

16253 12+
Book 2000 WATI
This one contains contributions from school district and CESA staff from across the state. It includes hundreds of ideas, examples, pictures, and handouts that have worked in Wisconsin schools. Over 50 practitioners have shared their ideas to help others.

Writing by Dictation

16321 12+
Book 2003 Integrated Technology Services
This guide covers the training of Dragon 6.0 and 7.0. The rest of the curriculum helps students learn the process of writing by dictation which we have found is a necessary skill to be taught in order to use speech recognition within the School curriculum. It is intended for upper elementary thru high school.

Software

BuildAbility

16319 K-8
CD-ROM - Mac/Win 2001 Don Johnston
BuildAbility is the easiest-to-use authoring tool for building rich, single-switch early literacy activities and lessons. Teachers can build a complete multimedia page in just four easy steps — draw or choose a picture, add text, add sound and select the page advancement. The one-click toolbar lets you add the next graphic, text, sound, movie, your voice, student voices and the single-switch option. The activities are easily shared with other teachers and parents with the free BuildAbility Player. Get started with the more than 20 literacy activities created by Caroline Musselwhite, Patti Rea and other literacy experts.

Clicker Paint - Version 1.0

16278 K-12
CD-ROM - Mac/Win 2007 Crick Software
Clicker Paint is an exciting new program that fully integrates with Clicker 5 and works as a powerful stand-alone program as well. Clicker Paint has been designed as an educational tool, incorporating unique and innovative features that add a new dimension to student creativity.

Find out and Write About –

CD-ROM - Mac/Win 2006 Crick Software
This unique series is a factual, curriculum-based series of CD-ROMs that is designed to support young children who are learning to find out information, then write about it. Each CD-ROM contains an interactive talking book of non-fiction text. Children can read the text or click the 'listen' button to hear it spoken. Children can also click on a word with the right-hand mouse button to hear it. Each page of the book contains a link to a Clicker writing grid that relates directly to that page, so children can write about the information they have just learned. Children write by clicking on a word with the left-hand mouse button. Words are color-coded to help writers compose sentences successfully.

This set contains 3 stories: Dan's Journey, Ella's Bedtime, and Stan's Wait.

Level 2 Set B 16313 K-2

This set contains 3 stories: Amber's Busy Day, Holly's Surprise, and Josh's New Boots.

Level 3 Set A 16316 K-2

This set contains 3 stories: Stuck, The Cake, and The Race.

Level 3 Set B 16317 K-2

This set contains 3 stories: The Movie, The Wobblit, and Treasure.

Sign Smith Illustrated Dictionary

Volume I

16318 12+

CD-ROM - Win 2002 Vcom3D

The Sign Smith Illustrated Dictionary Volume I is designed for everyone who wants to learn American Sign Language (ASL). Choose one of nine characters with different personalities and ethnic backgrounds. Characters fidget while waiting and show emotions, like impatience or happiness. Every word in the dictionary is represented by a picture, used in a sentence and signed by your selected character. Click on a letter to jump to words that start with that letter or choose from 20 categories, like Activities, Adjectives and Animals.

Equipment

Big Track - Switch Adapted

16255 Infogrip

The BIG track has a 3 inch trackball which makes it the largest trackball

available. The large ball requires less fine motor control than a standard trackball and it is ruggedly built. It has a

left and a right mouse click button located

behind the trackball to avoid unwanted mouse

clicks. The BIG track also allows for 2nd

Mouse Connection both the BIG track and a

second mouse can be connected allowing simultaneous

participation. The bright large 3" trackball helps to make

mouse movements easy and accurate. While the oversized

buttons make mouse clicks simple for those with poor

motor control. For even more access the BIG track is

available in a switch adapted version. The switch adapted

BIG track comes with two standard 1/8" plugs for two

switches. Its left and right mouse clicks have been

adapted so that you can use a switch for activation.

BookWorm Literacy Tool

16277 Ablenet

The ingenious inclusion tool that turns virtually any book into a "talking book". Just imagine the look on a child's

face when he or she discovers the thrill of reading independently for the very first time. Now imagine a

classroom where students with disabilities can read an entire story to their classmates and even take their turn

reading aloud. With the BookWorm literacy tool, students have new way to connect with classmates, teachers and

family members. Stories have new meaning and characters come to life as students join in the literacy

experience. The BookWorm is so engaging that practicing turn taking skills and working on language

comprehension, vocabulary building, fluency and print recognition becomes transparent. The Bookworm's 8-

minute memory module offers you the flexibility to record as many as 32 pages – enough time for adapting

two text-rich books or up to four short books. Adapting a book is easy. Simply attach a removable sticker to each

page of your student's favorite book and record the story, page-by-page into the BookWorm. The stickers serve as a

guide indicating where to push for playback.

Newly Acquired Assistive Technology Materials

Califone Personal VoiceSaver PA

16322 Califone

Perfect for groups up to 25 people, the lightweight VoiceSaver is equally effective for leading tour groups, dance and athletic classes, presentations, or lending support for those needing increased voice projection and amplification. It's

light enough to wear on a belt and can be comfortably worn all day. Model number is PA282AV.

Casio Label It! Labelwriter

16233 Casio

The Label Printer makes it possible to print adhesive labels for a wide variety of applications, such as: name tags, cassette tape labels, binders and other applications. Also use it to label items throughout the classroom for vocabulary development.

Classmate Reader

16323 Don Johnston

The ClassMate Reader is a new portable text reader designed to boost reading and learning independence. Students can listen to the audio version of their textbooks and study materials, while following the highlighted text on screen.

Students gain access to their curricular materials anywhere and anytime with this easy-to-use device.

Dymo Letra Tag QX 50 Electronic Labelmaker

16337 Dymo

The QX50 expands the LetraTag line with a new look, new functions, and a computer (QWERTY) style keyboard. Uses include labeling items in your kitchen and cupboards, freezer items, crafts and sewing kits, photo albums, tools, and much more. Also, use the QX50 with Dymo's newest fabric iron-on tape, making it easy to identify children's clothing, sports equipment, and other fabric by simply printing, peeling, and ironing. This model prints on 1/2-inch wide LetraTag tape.

P-Touch Personal Labeler – PT-80

16338 Brother

The PT-80 is a handheld all in one affordable, feature packed "Personal Labeler". The PT-80 will easily print labels in 6 type sizes, 9 type styles and 1 font for all different labeling needs - all you have to do is type in your text and print. At the touch of a button, you can also add the time and date to your label, with a choice of 8 different formats. With the PT-80, you can print (non-laminated labels) in 3/8" & 1/2" wide. The PT-80 comes with 1/2" Black on White "M" starter tape and User Manual.

Say-It! Sam Communicator Version 2.0

16324 Words Plus Inc

Say-it! SAM was designed from the ground up to be the most powerful, easiest to configure, and simplest to use Augmentative Alternative Communication (AAC) device available in its class, all at a surprisingly affordable price. People of all ages and physical challenges will love SAM for its powerful features, easy to navigate graphical interface, and loud and clear speech output.
