It also teaches language processing skills that are critical for extracting meaning from spoken language and written text.

Find out and Write About –

CD-ROM - Mac/Win 2006 Crick Software
This unique series is a factual, curriculum-based series of CD-ROMs that is designed to support young children who are learning to find out information, then write about it. Each CD-ROM contains an interactive talking book of non-fiction text. Children can read the text or click the 'listen' button to hear it spoken. Children can also click on a word with the right-hand mouse button to hear it. Each page of the book contains a link to a Clicker writing grid that relates directly to that page, so children can write about the information they have just learned. Children write by clicking on a word with the left-hand mouse button. Words are color-coded to help writers compose sentences successfully.

Software

New Frog and Fly

15800 K-3

CD-ROM - Mac/Win 2008 Marblesoft

Based on the classic game from the early days of personal computing, this is one of those programs that just keeps getting better. One of Simtech's all-time best sellers, New Frog & Fly features brightly colored graphics with delightful animation and sometimes hilarious sound effects (I'll bet you didn't know that frogs could burp). Four switch training activities help teach cause and effect, two-switch step scanning, auto-scanning and reaction time. A wonderfully entertaining and effective switch training program.

Photo Factory - Version 1.5

19063 1-12

CD-ROM - Mac/Win 1999 ScanSoft

Photo Factory combines three powerful, fun-to-use photo-editing software packages you can use to edit, liquefy, twist, stretch, and just plain "funkify" your photos. It's a great opportunity to take those old photos out of the closet and give them new life. It's also an excellent way to get more out of the images you are capturing with your digital camera. Photo Factory lets you collect photos in one place, view them in different ways, sort them, edit them, make photo prints, and share them on the Web. Create slick presentations, complete with sound, animation, and other easy-to-use, cool special effects.

Picasso Series

15802 K-3

CD-ROM - Mac/Win 2008 Marblesoft

This bundle combines One Switch Picasso Volumes 1 & 2 and Scanning Picasso Volumes 1 & 2 on one CD. Each volume of One Switch Picasso features four cause and effect activities where each switch press serves to draw then color a picture. Each volume of Scanning Picasso introduces auto-scanning and step scanning in the same activities. Capture the paint palette to draw and color each picture. Featuring delightful art and music specially designed for young children.

Puzzle Power:

CD-ROM - Mac/Win 2002 SoftTouch

Has ten games for single switch players: single switch maze, frog's life, Mr. Marblehead, switching lanes, passing lane, switch invaders, scurry, slingshot gallery, single switch solitaire, and concentrate. Has four games for two single switch players: dual switch invaders, dueling slingshots, scurry too, and the duel.

Son of Cause and Effect Sights and Sounds

15818 K-12
CD-ROM - Mac/Win 2007 Marblesoft
Just when you thought it was safe to turn on your computer, along comes Son of Cause & Effect Sights & Sounds. The third in our Sights & Sounds series, this program features three new cause and effect activities (Popcorn, Ants and Splotch) along with five new musical themes. Cause & effect training has never been this fun

Spider Maze

15820 6-12
CD-ROM - Mac/Win 2007 Marblesoft
If you thought only frogs ate flies, think again. Look out! Here comes Spider Maze. Use your switch to help the spider gobble up the flies caught in his web. But watch out! Only the ladybug can protect the spider from the dreaded cans of bug spray. This exciting game is fun for all ages and helps teach cause & effect, two switch step scanning and single switch auto-scanning.

Super Switch Puzzles

15822 K-3
CD-ROM - Mac/Win 2008 Marblesoft
First we took all six volumes from our popular Switch Puzzles Series and condensed them into a single program. Then we added two switch step scanning and single switch auto-scanning. Then we included 40 puzzle photos and made it possible for you to load your own pictures into the program. Access the puzzle activities in any of three ways - single switch cause and effect, two switch step scanning and single switch auto-scanning.

Switch Arcade

15823 6-12
CD-ROM - Mac/Win 2008 Marblesoft
Practice cause & effect, step scanning and auto-scanning with all the fun of a carnival midway right on your computer screen. Experience the thrill of the shooting gallery, toss darts at balloons and throw baseballs at stacks of fine china. What could be more fun? Colorful graphics, animation and sound add to the appeal of this popular program.

Switch Kids

15824 K-3
CD-ROM - Mac/Win 2008 Marblesoft
Join the Switch Kids in this delightful collection of three cause and effect switch training activities. Watch them make funny faces and hear funny cartoon sounds in "Funny Sounds & Faces". Use your switch to help them blow bubbles in "Bubblegum". Build and dress each of them one switch press at a time in "Build-A-Kid". Delightful original music and sound effects along with colorful graphics help students stay focused on the screen. A must for young switch users.

Software

Switch Wars

15826 6-12
CD-ROM - Mac/Win 2008 Marblesoft
In this, Simtech's best selling single program, alien spacecraft have invaded our galaxy and the only thing that can save us is your switch. This exciting arcade-style game features four activities designed to teach cause and effect, linear scanning, step scanning and reaction time. Great for older students who cannot control standard or adapted video games.

Teen Tunes Plus

25829 K-3
CD-ROM - Mac/Win 1998 SoftTouch
Is a single-switch software designed especially for teens and pre-teens. Used for cause and effect.

Graph Club Version 2.0

19731 K-4
CD-ROM - Mac/Win 2003 Tom Snyder
Graph Club is an innovative, easy-to-use software tool for creating, exploring, interpreting, and printing graphs. The program's friendly, hands-on environment helps young students make the transition from graphing with manipulatives to graphing in the abstract. As students create and compare up to five different graph types, they develop essential graphing and math skills.

Graph Master Version 1.0

19733 4-8
CD-ROM - Mac/Win 2001 Tom Snyder
In our information-driven world, the ability to interpret and evaluate data is critical. Graph Master equips students with these essential skills by helping them learn to analyze data, interpret results, and solve problems. Custom-designed for the upper-elementary and middle-school classroom, the software gives students the support they need as they create and interpret nine graph types. Accompanying activities and data sets allow teachers to build conceptual understanding within the context of meaningful real-world questions.

Graphic Speller - Version 1.0.1

15794 1-6
CD-ROM - Mac/Win 2008 Marblesoft
This teaches graphing skills by having the students spell out words. A set of letters is placed on a number line or graph. The student plots the given coordinates to find each letter in turn, spelling out a word. The program uses a girl's voice to prompt, reward and reinforce the student. Our "sassy speech" option makes learning even more fun!
Note: This program does not teach spelling. The Graphic Speller is a graphing program that uses spelling.

Zoombinis: Logical Journey - Version 2

18225 3-8
CD-ROM - Mac/Win 2001 Riverdeep
This is an effective, entertaining program that builds and strengthens essential reasoning and mathematical communication skills. In this unique and popular program, students lead the peaceful and adventurous Zoombinis (little blue creatures that have different eyes, nose, feet and hair) on a digital trek in search of a new homeland after they escape the clutches of the mean and greedy Bloats. Unravel and solve 12 different puzzles that continuously challenge students using four levels of difficulty. Students hone in on graph skills, match pre-algebra wits, and learn how to sort, organize and analyze data, rather than memorize solutions.

Zoombinis: Mountain Rescue - Version 1.01E

18235 3-8
CD-ROM - Mac/Win 2001 Riverdeep
In this new adventure, the lovable Zoombinis must rescue some of their fellow friends from the dark depths of a strange mountain cave, meeting the strange-yet-friendly Boolies along the way. But watch out: the Fleens are back and full of tricks. Students create and move teams of Zoombinis through a colorful, puzzle-filled terrain. Mountain Rescue includes nine challenging puzzles that tackle mathematical thinking in networks, permutations, binary numbers, operations, and more. With three levels of difficulty, even adults will find this program challenging.

WordMaker - Version 1.0

18974 1-3
CD-ROM - Mac/Win 2003 Don Johnston
Is the phonics, phonemic awareness and spelling program that combines the two activities that the author has found to be successful in teaching reading. First, students manipulate letters to make words, discovering the patterns as they do this — guided discovery. Using a pool of letters, students make many different words using various letter combinations. Students hear an auditory prompt to make a word. Students drag letters to blanks, then click the checkmark to get feedback. Students receive word walls of the words they have mastered. Students then sort the words into rhymes and use the rhymes to decode and spell new words - knowledge transfer.

Green Eggs and Ham

18228 K-3
CD-ROM - Mac/Win 1996 Broderbund
Sam-I-am is as persistent as a telemarketer, changing as many variables as possible in the hopes of convincing the nameless skeptic that green eggs and ham are a delicacy to be savored. He tries every manner of presentation with this "nouveau cuisine"--in a house, with a mouse, in a box, with a fox, with a goat, on a boat--to no avail. Then finally, finally the doubter caves under the tremendous pressure exerted by the tireless Sam-I-am. Uses the best-selling classic story line and encourages the development of phonic skills and word recognition. Can be used with ELL students because it has Spanish as a language option.

Just Grandma and Me

Finally Sheila Rae decides on a new challenge: she will go home from school a new way. When she gets hopelessly lost, her courage falters, but scaredy-cat little sister Louise has been surreptitiously following Sheila Rae, and proves her own bravery by leading her sister safely home. Uses music to help children learn to love reading. Can be used with ELL students because it has Spanish as a language option.

Software

Stellaluna

18216 K-3
CD-ROM - Mac/Win 1993 Broderbund
Baby bat Stellaluna's life is flitting along right on schedule--until an owl attacks her mother one night, knocking the bewildered batlet out of her mother's loving grasp. The tiny bat is lucky enough to land in a nest of baby birds, but her whole world has just turned upside down. Literally. Stellaluna's adoptive bird mom accepts her into her nest, but only on the condition that Stellaluna will act like a bird, not a bat. Soon Stellaluna has learned to behave like a good bird should--she quits hanging by her feet and starts eating bugs. But when she finally has an opportunity to show her bird siblings what life as a bat is like, all of them are confounded. Explores universal themes. Includes separate science section with a "Bat Quiz" that helps teach students about "bats."

Tortoise and the Hare

25175 1-3
CD-ROM - Mac/Win 1993 Broderbund
When Hare boasts that he "leaves the wind behind" when he runs, Tortoise replies, "What nonsense. I'll give you a race." Hare laughs but accepts this easy challenge. As they set off, Hare bounds down the lane, with Tortoise creeping along behind. Hare obviously has the advantage ... or does he? Is an interactive version of the classic Aesop fable. Can be used with ELL students because it has Spanish as a language option.

Duxbury Braille Translator (DBT) - Version 10.4

17940 12+
CD-ROM - Win 2002 Duxbury Systems
Most people understand the basics about Braille: that it provides a reading medium for blind people, using "cells" made up of raised dots in various patterns instead of the characters used in regular print. But many people do not realize that the cells-for-characters substitutions are not, typically, on a one-for-one basis. Formatting of Braille pages also involves issues beyond those affecting print. DBT provides translation and formatting facilities to automate the process of conversion from regular print to Braille (and vice versa), and also provides word-processing facilities for working directly in the Braille as well as the print. "Fonts" are used for displaying the Braille.

CD-ROM - Mac/Win 2004 Assistive Technology

Stage 1 - Cause & Effect 18652 12+

In Stage One the learner is just starting to focus on the screen. She begins to understand that activating her input device - switch, mouse, touchscreen, etc. - makes something happen and that she has control over the computer.

Stage 2 - Language Readiness 18653 12+

CD-ROM - Mac/Win 2004 Assistive Technology
In Stage Two, the learner is exposed to language. He learns that objects have names and that actions have words to express them. The learner is not asked to identify objects, but rather to be a sponge and absorb information.

Stage 3 - Emerging Language 18654 12+

CD-ROM - Mac/Win 2004 Assistive Technology
In Stage Three, the learner begins to show us what she has learned in Stage Two. She can identify objects and place them in categories. This is the first stage in which the learner is asked to make a selection based on a prompt.

Stage 4 - Early Concepts 18655 12+

Stage Four is a major turning point in the learner's development, both academically and socially. The learner works on traditional readiness skills such as letter identification, counting skills, pattern recognition, and cooperative play.

Stage 5 - Advanced Concepts & Communication 18657 12+

At Stage Five, the learner embarks on a lifelong academic journey. Prepared by academic readiness skills in Stage Four, she can now continue her education in all subject areas that are appropriate and interesting to her.

Stage 6 - Functional Learning 18658 12+

CD-ROM - Mac/Win 2004 Assistive Technology
The Stage Six learner begins to acquire the skills that will allow him to become more independent in the real world. For example, he learns how to dress appropriately, use money, tell time, and read signs.
